

We Are On Mission

Website For Everyone

About Us

CSS Founder is a leading web design company fuelled with the motto of developing a 'Website for everyone. Envisioning itself as a leader in this industry, CSS Founder is growing significantly to create a monopoly in the market. From India to the US, CSS Founder has developed a brand name in most geographical locations globally with special emphasis on India, the USA, Canada, the UK, Australia, Germany, France, Italy, & the MENA region.

CSS Founder has become a household name today across the globe with their seasoned team of experts that takes every challenge as an opportunity to deliver highly efficient and customized websites with a 99 percent delivery rate.

CSS Founder is no ordinary website designing company but is a brand in the industry and its mission is to make that name resound globally. CSS Founder is the only website designing company ranking on top of Google and other search engines in more than 100 major cities of the world.

Our Vision

The vision of CSS Founder is 'Website for Everyone' which means that from India to the US, any individual, rich or poor, irrespective of their background, business, and class should have a website.

CSS Founder also gives out the message that in the near future, as their business grows and expands, they have promised this commitment to themselves to contribute the maximum share of their company's profit towards charity and they urge other startups and businesses to follow the same.

Social Responsibility

Free Food For Needy Programs

"To get rid of starvation and kick off heartfelt smile to under privileged and less fortunate children, we have initiated a Weekly & Daily "Food for the Poor Program" in Delhi-NCR, India. Everybody realizes the necessity to feed quality food and restore happiness to that shabby and discarded class of our society. They have all the rights to lead a normal life like ours. Don't you realize so? Join hands with us in the pious work for the society.. "
